

RAILROADMEN  
CHANGE PLACESHenderson Succeeds Young and  
Platt Succeeds Henderson.ROCK ISLAND SECURITIES  
CRUST OF SALT WILL HAMPER  
WORK AT THE PROMONTORY.

An upheaval seems to be going on in Salt Lake railroad circles and there appears to be no telling when and where it will end. Another change was announced yesterday, and this information confirmed the report which the Rio Grande officials have so persistently denied regarding J. H. Young's appointment as superintendent of the Utah division of the road. Mr. Young's resignation is in the hands of E. E. Calvin, general superintendent of the Oregon Short Line. Yesterday during the day Mr. Calvin announced that J. H. Young, general freight agent of the Oregon Short Line, was appointed to succeed Mr. Young as superintendent of the Utah division of the Oregon Short Line. Both changes are to take effect Aug. 1.

It was learned that H. V. Platt, who had been in the office of Mr. Young, is to be appointed to succeed Mr. Young as general freight agent of the Oregon Short Line. Mr. Platt is a comparatively young man, and has been in the employ of the road since 1884. He started in as clerk when Mr. Calvin was assistant trainmaster and was employed in the office of the trainmaster and the superintendent. Since then he has held the position of agent of the road at Pocatello.

The amazing feature of the entire transaction is the fact that the change in the office of the superintendent of the road has been made without any publicity. The most mysterious and the most mysterious of the changes is the fact that the change in the office of the superintendent of the road has been made without any publicity. The most mysterious and the most mysterious of the changes is the fact that the change in the office of the superintendent of the road has been made without any publicity.

SMITH TELLS OF  
POLITICS IN SOUTH

Should Have Factories to Manufacture American Cotton.

NEGRO QUESTION PARAMOUNT  
MORE EDUCATIONAL INSTITUTIONS BEING ESTABLISHED.

NEW YORK, July 25.—Former Secretary of the Interior Hoke Smith of Georgia, who has been in this city, is quoted by the Times, in discussing conditions in the southern states as having said:

"The question of principal interest with regard to the political attitude of the south is not whether it will adhere to the Democratic party, but what part it will take in the Democratic national convention."

"Will it stand by the departure of 1896 at Chicago, which was reiterated at Kansas City in 1900, or will it go back to the Democracy of Jefferson and Tyler?"

"It seems impossible for eastern business men and even eastern Democrats to understand the situation in the south."

"Of first importance with us is local government."

"Our sufferings from 1868 to 1880 taught lessons which will make it impossible for many years to come to the white vote to divide. It is not so much a matter of race prejudice, it is a matter of protecting our state, county, and municipal government from ignorance and incompetence."

"The large majority of the white voters of the south are really conservative, but their fear of bad local government causes them frequently to make no fight on a national question lest it might jeopardize that which with them is essential—good local government. The Democrats of the east may confidently rely upon cordial cooperation in 1904 from those of the south."

"The south has made wonderful progress in the last few years. Manufactures of every sort are being erected. I do not regard the struggle for supremacy in the men of the cotton to be between England and the south. The south produces 70 per cent of the lint cotton of the world, which goes to manufacturers."

"Foreign mills increase the value of American raised lint cotton \$500,000,000 by manufacturing it annually. It is this immense increase that the south covets."

"It is for America in the south where the cotton grows to prepare the manufactured fabric for export, and I believe each year the south, in her cotton mills, will make great inroads into the business of foreign cotton manufacturers."

"Nothing in connection with the south gives me more pleasure or more encouragement than the tidal wave of enthusiasm which is spreading over the section in behalf of a thorough system of public education, including technological institutes and manual schools. It is expected that the biggest excursion of the season will go to Brigham Sunday over the Short Line. The occasion is the annual session of the Southern States and it is expected that over 2,500 people will take advantage of the low rate."

WALKER BROTHERS,

## ELKS' CLUB IN RUINS

Albany Fire Causes Heavy Property Loss—One Fireman Killed and Two Injured.

Albany, N. Y., July 25.—One fireman dead, one believed to be dying and another seriously injured, in addition to a monetary loss of over \$750,000, is the result of a fire that broke out in the heart of the business district shortly after 3 o'clock this morning.

The dead fireman is D. K. Bishop, an auxiliary member of the insurance patrol and prominent in financial circles. James J. Shelly, a fellow member of the patrol, was severely injured, and the Elks' club house, which is a mass of wreckage, horribly burned and with both hips dislocated, both legs broken, one arm shattered and severe internal injuries. He probably will die.

Frank H. Wetherwax, superintendent of the insurance patrol, is suffering from concussion of the spine and internal injuries.

The fire started on the top floor of the public market in Beaver street, and spread rapidly to the Columbia hotel and the Elks' club house, which adjoins it west and east, respectively.

The front wall of the market building fell, carrying with it the upper story of the Columbia hotel. Flames were spreading tarpaulins in the hotel, were caught under the wreckage.

The fire communicated to the Unconquered Republic club house and the building occupied by the Evening Times-Union. Neither of these establishments suffered to any great extent.

Among the heaviest losers will be the Lang Rubber Stamp works, the Crucible Steel company, Lester Parker Furniture company, Albany Rubber Tire company, Huth & Fisher shirt factory, United Shirt & Collar company, Cady Paper Box company, Wertheim Brothers, clothing manufacturers; Columbia Hotel company and Albany lodge of Elks.

Foley's Kidney Cure purifies the blood by straining out impurities and tones up the system. Cures rheumatism and bladder troubles. Johnson-Pratt Drug company.

## SONORA TRAIN WRECKED.

Five Killed Outright—Cars Smashed to Kindling Wood.

Los Angeles, Cal., July 25.—A special from Tucson, Ariz., says: Five persons were killed and a number injured in a disastrous wreck yesterday near Llanos, a town seventy miles south of Nogales, on the Sonora railroad.

The northbound international train was derailed by a washout, and the engine, baggage car, two passenger coaches and a Pullman sleeper toppled over an embankment. The baggage car and one passenger coach were smashed to kindling wood, but the first-class coaches and the Pullman escaped with little injury.

The killed and the seriously injured were all in the second-class coach at the time of the accident. A brakeman and engineer, who were dead-heading, and three Mexican employees were killed outright.

Three passengers were seriously injured and may not recover. Many others received slight injuries and bruises which will not prove serious. The engineer and fireman miraculously escaped injury. The engine was buried up to the top of the wheels in the sand. Complete details of the accident are lacking, as neither the Southern Pacific officials at Tucson nor the officials of the Sonora railroad at Nogales have been furnished the names of the killed and wounded.

## Why Suffer With Headache

When you suffer with Headache Cures you will rid you of it? They are instantaneous in their effect, and perfectly harmless. Keep a box in the house for emergencies. The cure for neuralgia, 25c and 50c a box. For sale by Godbe-Pitts' Drug company.

## FIGHTING AMERICAN TRUSTS.

Canadian Pacific Said to Be Working Against the Morgan Combine.

London, July 25.—The announcement from Montreal that the Canadian Pacific railway had, at the request of the Canadian ministers now in London, offered to establish and work a weekly fast service between Quebec and Liverpool in the summer and between Halifax and Liverpool in the winter with a good freight service in each direction, has been met with a certain amount of surprise in the shipping circles, reading: "The Morgan combine to fight the American trust," etc.

The officials of the Canadian Pacific
